

GUARANA

25 SHOTS / 25 ml

Orange ■

Guarana is made from the dried and peeled seeds of the plant *Paulinia Cupana*.

It originates from the Amazon where it has been used for a long time from the natives of this region for suppressing appetite and fatigue. The effect comes from the caffeine-like effect which is milder and more sustained than that of the caffeine in coffee.

In Guarana 1.800 Shots we have used the best quality guarana extract, which means higher caffeine level and better taste. The liquid form allows a faster release than a tablet or capsule retaining a longer lasting effect.

With 1.800 mg of highly concentrated guarana extract we have one of the highest dosages in the market (180 mg of time released caffeine equates to 2 – 3 cups of filter coffee).
