

L-CARNITINE 1.500 DRINK

750 ml

Pineapple ■ Cranberry ■ Lemon-Lime ■

L-Carnitine has the function of transporting fatty acids into the muscle cells (mitochondria) where it is converted into energy.

L-carnitine is essential for burning fat during a calorie controlled diet or intense workout. There is an ongoing discussion if L-carnitine supplementation can increase L-carnitine in the metabolism where it is needed. We recommend that you try it yourself and feel the difference! In our ready to drink version we have added 1500mg of premium quality Carnipure L-carnitine for best results during your training or weight loss regime.

INGREDIENTS

Water, acidulant citric acid, L-carnitine, flavor, sweetener sodium cyclamate, acesulfame K, aspartame (contains a source of phenylalanine) and sodium saccharin; Dyes E150d and E122; Preservative E202. E122: May impair activity and attention in children.

RECOMMENDED CONSUMPTION

Dosage/Directions for use:

Take during workouts or whenever you are thirsty.
